Release notes

Changes and bug fixes

1. An option to export the static (setup) data has been added to the 'Extras' function. This will export current records for the following tables.

   Tests
   Profiles
   Customers
   Locations
   Rate cards
   Interfaces

   This will export tab delimited text files to a folder selected when the method is run. The process may take some time and there is no progress message. There is an export complete message when the process ends.
